19 CARD

You may find it useful to make a card from this page and carry it, for reference. You can print it *(Layout/Paper 'A4'; Size: 'Actual size/100%')*, cut it out at the solid red frame, fold it outwards at the middle broken line over a piece of thin card to stiffen it, glue it together and cover it with transparent plastic for protection. When finished, it will have the approximate size of a bank card.
In the list showing the alphabet, the fourteen sun letters are transcribed in **red**.
